BECAUSE GRAVITY ISN'T JUST
A GOOD IDEA IT'S THE LAW

Acid Reflux is a common health condition which occurs due to either hiatal hernia or having insufficient amounts of stomach acid.

Heart conditions worsen with age and lifestyle choices. Relationship between sleep and heart health is a close one and the two are heavily dependent upon each other.

Sleep Apnea is a very common sleep disorder in which breathing becomes interrupted during sleep. This condition poses serious harm if left unchecked.

Elevate Your Sleep

Elevating your upper body while sleeping relieves a myriad of problems

MoltyFoam introduces Pakistan's first-ever inclined therapy mattress, MoltyCure. The main benefit of this is improved circulation of blood and lymph, simply by gravity. The mattress is a miracle cure for people with acid reflux, heartburn, and snoring. MoltyCure allows your body to heal and gain strength simultaneously.

Perfect all-around coverage for the **MOMS-TO-BE!**

The maternity pillow is designed for stress relief and support, both for the mom and the baby. It helps maintain a safe posture for the baby by supporting overstretched muscles and relieves pains and aches.

FEATURES:

- Helps maintain a safe posture for the baby while you sleep
- Supports overstretched muscles
- Supports you as you change positions during sleep
- Helps relieve pains and aches
- Made of 100% polyester fabric
- Filled with polyester ball fiber
- Easily washable inner and outer covers

The Best Care, **IN THE BEST WAY!**

This thoughtfully designed U-shaped pillow with arc design helps the bedridden and elderly patients turn over without any discomfort. Helping patients to easily change their body posture and prevent bedsores, this pillow provides comfortable support since it is easy to use.

FEATURES:

- It is ergonomic, and the arc design fits the patient's legs better, making it more comfortable to use.
- High-quality HD foam is used inside, which has fast resiliency, maintains the height of the body, and does not soften the couch.
- There are two handles on the side to help medical staff and family members to handle more conveniently, and patients can also get up by using the handles.
- Waterproof leatherette feels comfortable and better for cleaning, and it is more convenient to remove and wash with high-quality zippers.
